SEQUENCE SUBMISSION STATEMENT

Assistant Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

In response to the Notice to Comply mailed August 23, 2000, a copy of the Sequence Listing in computer readable form as required by 37 C.F.R. § 1.821(e) is submitted herewith. The CD-ROM submitted along with the application on June 23, 2000 included two documents thereon, one of which was entitled BAP28.txt and contained a computer readable form of the Sequence Listing. The other document, entitled README.TXT contained a request to return the disk to the sender if it was received by an unauthorized party.

For the convenience of the P.T.O., Applicants submit herewith another copy of the computer readable form of the Sequence Listing. As required by 37 C.F.R. § 1.821(f), the data on the enclosed CD ROM is identical to the paper copy and computer readable form of the Sequence Listing submitted with the application on June 23, 2000.

Please charge any additional fees, including any fees for additional extension of time, or credit overpayment to Deposit Account No. 11-1410. A duplicate copy of this sheet is enclosed.
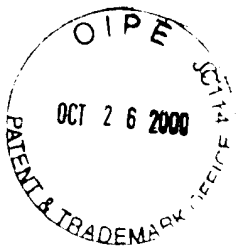

Respectfully submitted,

KNOBBE, MARTENS, OLSON & BEAR, LLP

CRF Problem Report

The Scientific and Technical Information Center (STIC) experienced a problem when processing the following computer readable form (CRF):

Application Serial Number: **09/603,665**

Filing Date: **6/23/2000**

Date Processed by STIC: **7/13/2000**

STIC Contact: **Mark Spencer, 703-308-4212**

Nature of Problem:

The CRF (was):

_____ (circle one) Damaged or Unreadable (for Unreadable, see attached)

_____ Blank (no files on CRF) (see attached)

_____ Empty file (filename present, but no bytes in file) (see attached)

_____ Virus-infected. Virus name: _____ The STIC will not process the CRF.

_____ Not saved in ASCII text

_____ Sequence Listing was embedded in the file. According to Sequence Rules, submitted file should **only** be the Sequence Listing.

__✓__ Did not contain a Sequence Listing. (see attached sample)

_____ Other:

PLEASE USE THE CHECKER VERSION 3.0 PROGRAM TO REDUCE ERRORS. SEE BELOW FOR DETAILS:

Checker Version 3.0

The Checker Version 3.0 application is a state-of-the-art Windows based software program employing a logical and intuitive user-interface to check whether a sequence listing is in compliance with format and content rules. Checker Version 3.0 works for sequence listings generated for the original version of 37 CFR §§1.821 – 1.825 effective October 1, 1990 (old rules) and the revised version (new rules) effective July 1, 1998 as well as World Intellectual Property Organization (WIPO) Standard ST.25.

Checker Version 3.0 replaces the previous DOS-based version of Checker, and is Y2K-compliant. Checker allows public users to check sequence listings in Computer Readable form (CRF) before submitting them to the United States Patent and Trademark Office (USPTO). Use of Checker prior to filing the sequence listing is expected to result in fewer errored sequence listings, thus saving time and money.

Checker Version 3.0 can be down loaded from the USPTO website at the following address:
http://www.uspto.gov/web/offices/pac/checker
